

Webster County Waste Management Office

Investment: no additional investment

Benefits: \$116,400 annual

Beneficiary: Webster County, Population 9,039

Data Used:

- Base Layer: Street centerlines, address, orthoimagery, parcels
- Other Resources: Waste Management current billing addresses

Description:

As a part of a project to improve the 911 addressing for Webster County E911 the Golden Triangle Planning Development District. As a part of the E911 verification process the collected addresses were matched to the waste management database. There were 970 addresses that were not receiving waste management bills. At \$10 per month or \$120 per year this resulted in an \$116,400 annual increase in revenue to the county through waste management office.
